# ENSA Normandie Welcome !

---

École  
nationale  
supérieure  
d'architecture  
de Normandie

---

**Founded in 1903, the ENSA Normandie is the only architecture school within the norman territory** and is a member of the network of 20 architecture schools accredited by the Ministry of Culture in France. The school was established in 1984 in Rouen and Darnétal, in a former factory, witness of the late 19th century architecture.

---

**An outstanding location to study**

Within a 2.5 hectare park, the school provides 6000 square meters dedicated to teaching architecture and is home to around 700 students. By the end of 2023, additional 500 square meters will be dedicated to research. The school's objective is to lead an active pedagogy by combining the teaching of theoretical knowledge and practice throughout group work or thematic workshops. In order to best prepare the students for the professional world, ENSA Normandie has taken up the current territorial issues and the diversity of contemporary practice : environment, transformation of the existing, climate change and eco-materials.

---

**A variety of educational resources**

- 1 carpentry workshop
- 1 documentation center with 60 000 references
- 1 reprography and Fablab workshop
- 1 research laboratory
- 1 business incubator
- 2 lecture halls et 27 classrooms
- 1 large hall of 500 m<sup>2</sup>

Founding member of Normandie University.

ENSA Normandie also has a strong dynamic partnership with local authorities, associations and institutions.

# A variety of educational path

---

**Bachelor program**

The Bachelor in Architecture is a six-semester program leading to an undergraduate degree (Diploma in Architectural Studies - DEEA). It is a cycle of initiation and understanding of the project and the architectural culture, and of the design processes in reference to uses, techniques and temporalities.

French-Vietnamese Bachelor's Degree at the Hanoi University of Architecture

The Franco-Vietnamese Bachelor's degree is a six-semester program leading to an undergraduate degree (Diploma in Architectural Studies - DEEA). It is an introductory course that aims to provide a solid urban and landscape architectural training in the light of contemporary issues

shared by Orient and Occident: global warming, rising sea levels, air pollution, and accumulation of waste from the "consumer" society.

Architecture Engineering Urbanism Bachelor's Degree with INSA Rouen Normandie

The Architecture Engineering Urbanism degree is an eight-semester program leading to a double undergraduate degree (Diploma in Architecture Studies - DEEA - and a Bachelor's degree in Engineering). This program is designed to meet the needs of students who wish to study architecture and engineering in a common classroom while sharing knowledge for a better understanding.

**3**  
bachelors degree

**3**  
masters degree

**1**  
professional  
training

**2**  
doctorates

**700**  
students

**60 to 70**  
students in  
academic mobility  
per year

**32**  
partner  
institutions

**4**  
continents

**1**  
french summer  
camp

**11**  
PhD students

**78**  
teachers and  
researchers

**40**  
administratives  
staff

#### **Master program**

The Master's degree is a four-semester program leading to a graduate degree (Diplôme d'État d'architecte - DEA). It is a cycle dedicated to reinforcing knowledge in the design of an architectural and urban project, by understanding the complexity of societal, economic and environmental issues, and by organizing their critical mind. Three fields of specialization are available: Experimentation, Cities and Territories Architecture, and Trans-Form, Building with the Existing.

[DRAQ course - Master in Civil Engineering with the University of Le Havre Normandie](#)

The Diagnosis and Rehabilitation of everyday Architecture course (DRAQ) within the Civil Engineering

Master's degree is a two-semester program of scientific specialization focused on the analysis of old or modern buildings as well as on the architectural and technical rehabilitation project. According to their original training, the students graduate with a DRAQ master's degree, with a major in architecture or engineering, delivered by the University of Le Havre, Civil Engineering Department.

#### **Post DEA**

The habilitation to practice project management in its own behalf (HMONP) is a professional diploma allowing the certified architect to register with the Order of Architects and to practice project management.

[The doctorate in architecture with the University of Rouen Normandy](#)

The doctorate in architecture leads to a postgraduate degree. The doctorate student works on a thesis in the school's Architecture, Territory, Environment laboratory (ATE).

[The doctorate in research and creation \(Radian\)](#)

In partnership with the Higher School of Arts and Media of Caen/Cherbourg and the Higher School of Art and Design Le Havre/Rouen, the school also proposes a doctorate in research and creation, particularly directed to architects with an established and recognized production.

#### **An international outreach**

Holder of the Erasmus charter since 2007 and Erasmus + since 2014, a partner in the network of French and Central / Eastern European schools of architecture, ENSA Normandie has long been committed to an international policy of study with educational and research projects worldwide.

- 32 partner institutions on 4 continents
- 2 hours of French lessons a week
- 1 « Buddy » program for incoming students

## Normandy region

### Living in Rouen and in Normandy

Rouen benefits from the attractiveness of a large city while being a city on a human scale. This unique and vivid metropolis is home to 500,000 inhabitants including 45,000 students. Located at 1,5 hours from Paris, Rouen is an imposing cultural capital with a prestigious architectural heritage and multiple museums. Major national and international events take place in Rouen such as the Armada and the Normandy Impressionist Festival. It is also a candidate for the European Capital of Culture title for 2028. The city, ENSA Normandie and Normandie University provide several support services for the arrival of international students (housing assistance, visa

or residence permit, health center, etc.). Rouen also has an efficient public transportation network that enables easy access to other interesting locations such as Mont-Saint-Michel (Unesco World Heritage Site), Le Havre, Caen, Étretat, etc. The Normandy coast is only one hour away by train or car.

- Start of the 1st semester lessons:  
Beginning of September
- Start of the 2nd semester lessons:  
Beginning of February

---

**An active pedagogy for**  
student success, scientific expertise  
and coordination with research and  
also development of double major  
and international training.
